

# **MOBILE APPLICATION DEVELOPMENT**

Project Definition:  
Forever Family Saloon App

# TEAM

Sapna Dangar - 20SOECE11010

Mansi Chanu – 20SOEIT11005

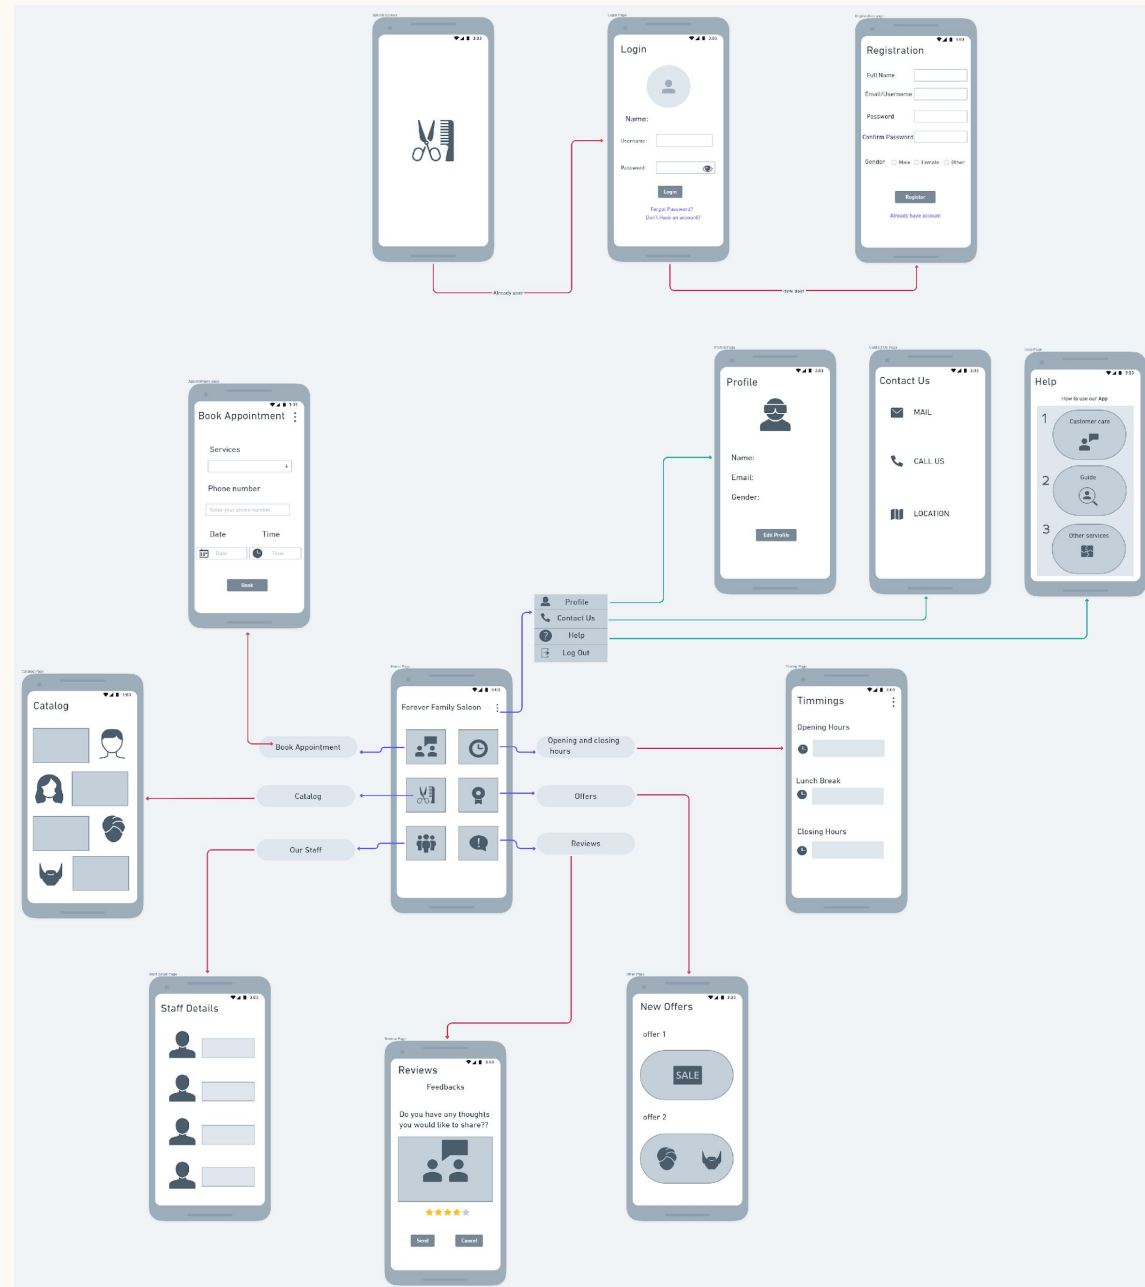

Urmila Chakrabarty – 20SOECE11117

# INTRODUCTION

We are creating an app for the Forever Family Salon that offers features like booking appointment, leaving reviews, displaying the catalogue, opening and closing times, etc.

# **WIRE FRAMES**

# LOGIN

## Image View

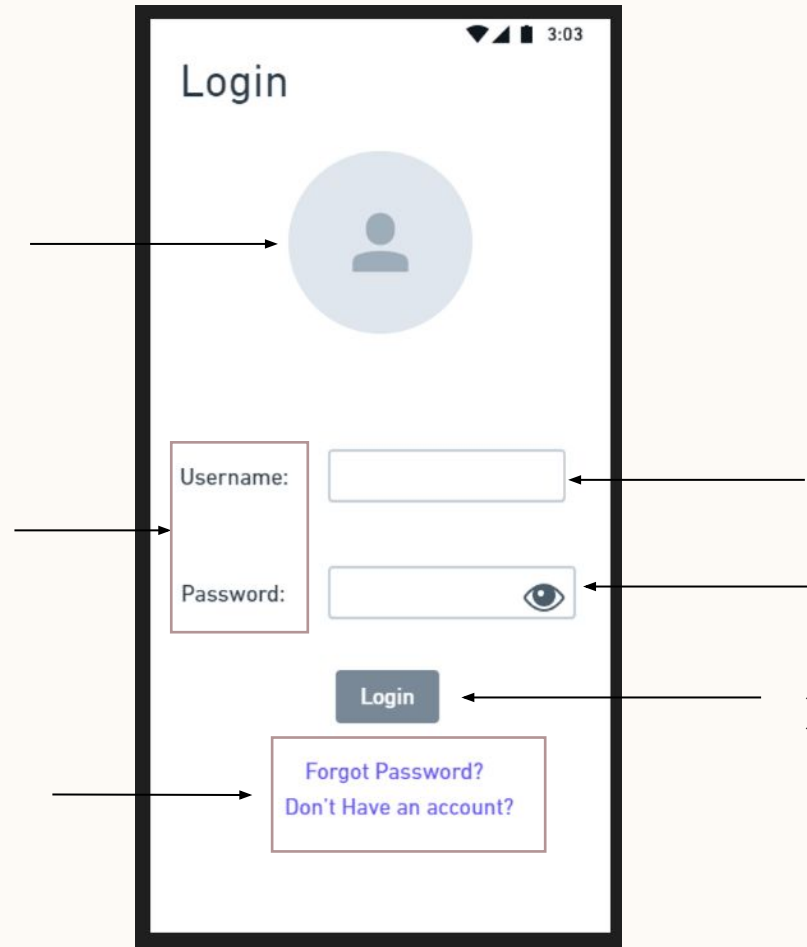

- In this image view you can upload picture for profile

## Text View

- This text view show the label

## Text View

- This text view will act as link that will direct to another activity

## Edit text

- This two edit text is used to take user input

## Button

- By clicking the Login Button it will verify the user credentials

# REGISTRATION

## Text View

- This text view show the label

## Edit text

- This two edit text is used to take user input

## Radio Group and Radio Buttons

- User can select any one radio button

## Button

- By clicking the Register Button it will store user data into database

## Text View

- This text view will act as link that will direct to login activity

The image shows a mobile application registration screen. At the top, the title 'Registration' is displayed. Below the title, there are four labels: 'Full Name', 'Email/Username', 'Password', and 'Confirm Password'. Each label is followed by a corresponding input field. Below these input fields, there is a 'Gender' label followed by three radio buttons labeled 'Male', 'Female', and 'Other'. At the bottom of the form, there is a blue 'Register' button. Below the 'Register' button, there is a text link that says 'Already have account' in blue text.

# APPOINTMENT

## Text View

- This text view show the label

## Spinner

- It will show dropdown menu with available options

## Text View

- This text view show the label

Book Appointment

Services

Phone number

Enter your phone number

Date

Time

Book

## Text View

- This text view show the label

## Edit text

- This edit text is used to take phone number as user input

## Text View

- This text view show the label

## Button

On clicking this button it will send the data

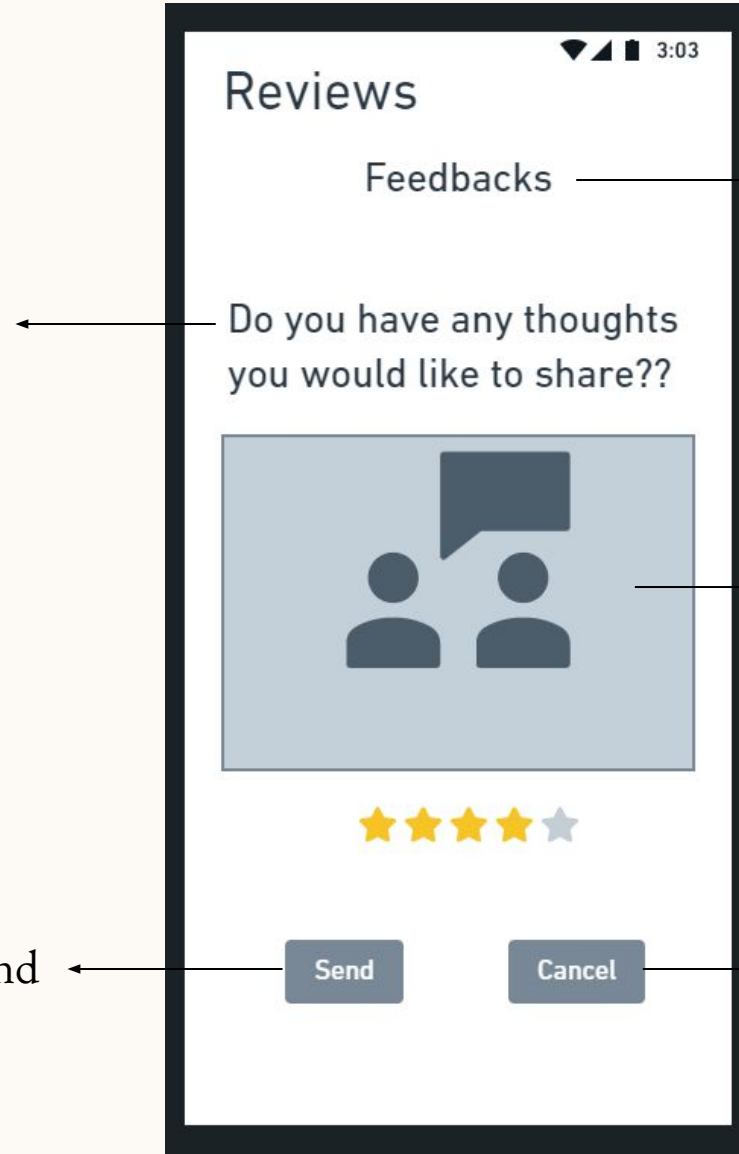

# REVIEW

9

## Text View

- This text view show the label

## Text View

- This text view show the label

## Edit text

- This edit text is used to take user review

## Button

- On clicking this button it will send the data

## Button

- On clicking this button it will clear the feedback

# TIMING

10

## Text View

- This text view show the label

Opening Hours

## Edit text

- This edit text will show opening time

## Text View

- This text view show the label

Lunch Break

## Edit text

- This edit text will show lunch break time

## Text View

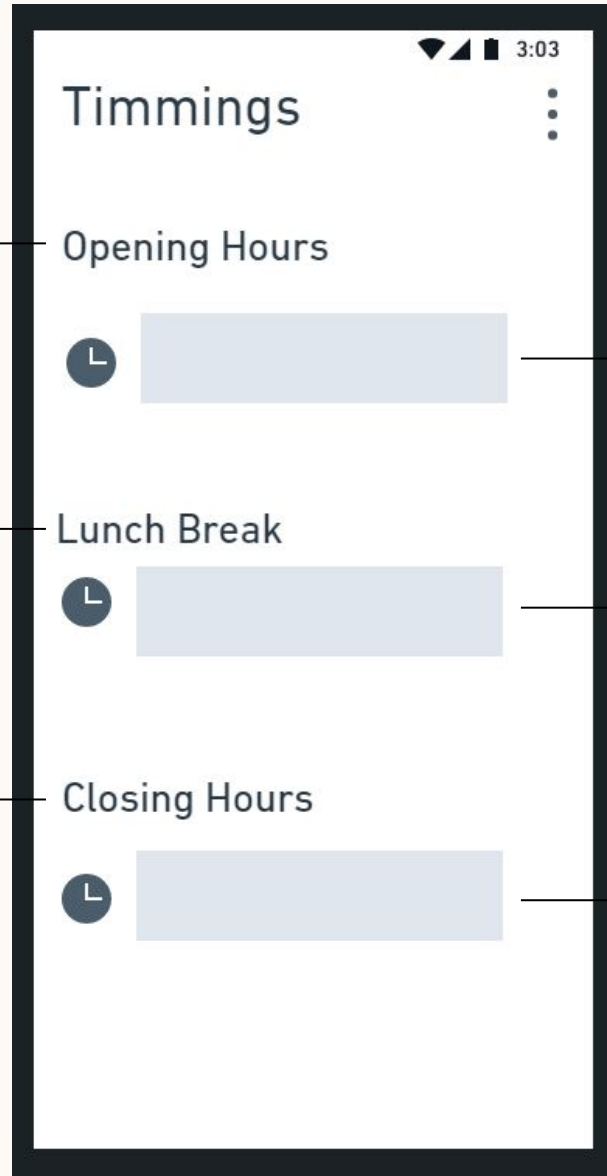

- This text view show the label

Closing Hours

## Edit text

- This edit text will show closing time

A mobile application interface titled 'Timmings' with a status bar at the top showing signal, battery, and time (3:03). The interface contains three sections: 'Opening Hours', 'Lunch Break', and 'Closing Hours'. Each section has a clock icon and a light blue rectangular input field for editing the time.

# CATALOG

## Text View

- This text view show the label

[Forever Family Saloon \(whimsical.com\)](https://whimsical.com)

An abstract geometric design on the left side of the slide. It features a series of concentric white circles on a light green background. A solid blue semi-circle is positioned to the right of the circles. Below the green area, there are pink and red triangular shapes meeting at a diagonal line.

# **Analysis Models**

# Sequence Diagram

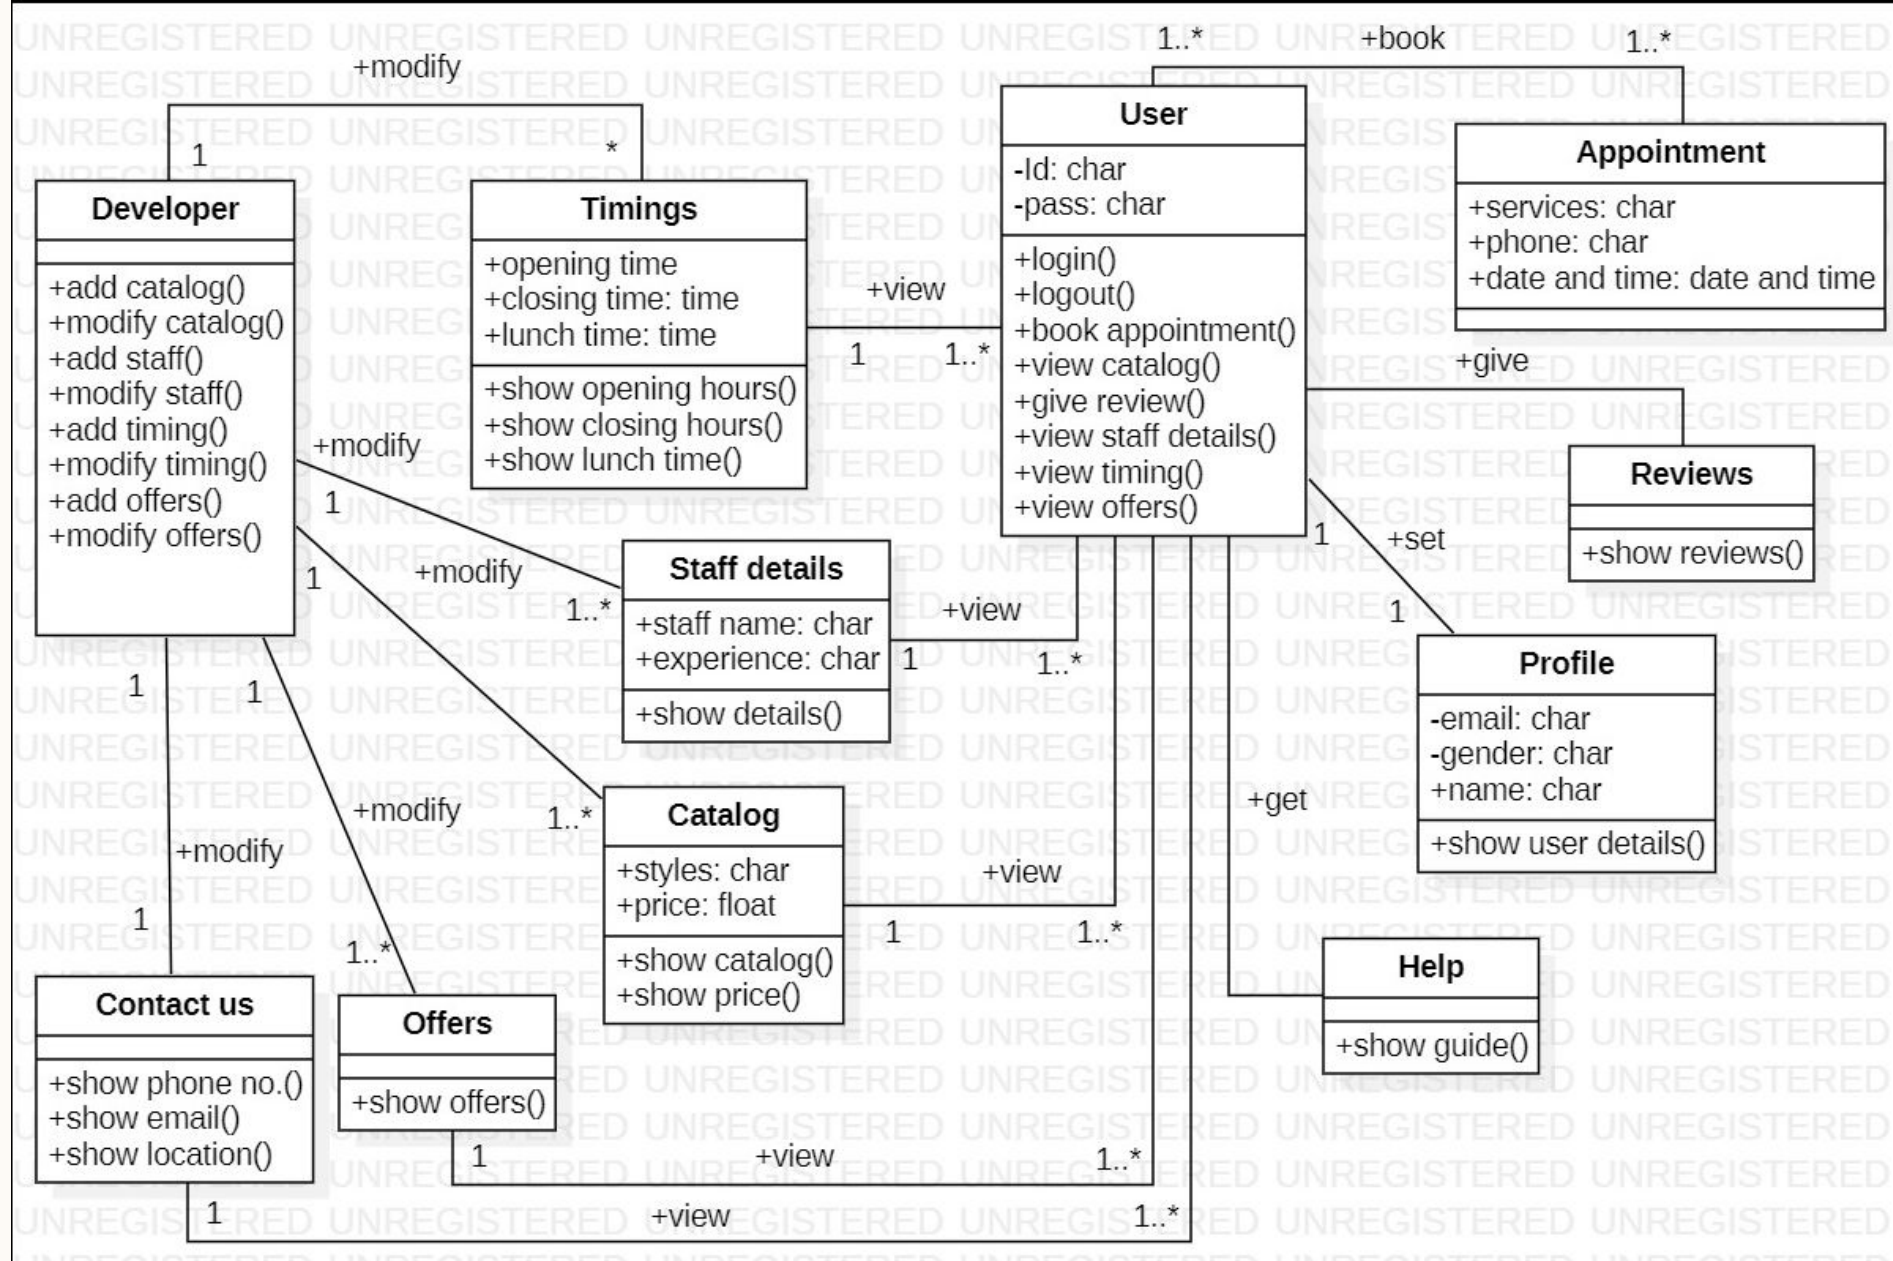

16

# Class Diagram

17

# **Future Enhancement**

- Online Payment
- Data encryption
- Membership Card
- Separate Admin and User Panel

# Limitations

- Very less use of dynamic data
- No Proper Optimisation for storage
- Software maintenance complexity
- Basic and Simple UI

**THANK YOU**
